

**Parking Stencil Instructions - Average time to prepare stencil for use:
1 hour.**

Required materials and tools:

1. Stencil master (included)
2. Stencil board (included)
3. Spray glue (from craft or art supply store)
4. Sharp utility knife (from hardware or builder store)
5. Pavement marking paint (from commercial building maintenance supply store)
6. Board or cutting surface

Assembly and use instructions:

1. Reverse-unroll stencil board until it lays flat and apply spray glue.
2. Glue the stencil master to stencil board, working from one side to the other.
3. Place board or cutting surface beneath stencil and cut out stencil with utility knife.
4. Place completed stencil on pavement and apply paint. Weighting the stencil on non-perforated areas may be helpful.
5. Allow paint to dry and enjoy using motorcycle parking area.
