

I have ridden my motorcycle to work today because:

- ✓ **Riding to work is fun**
- ✓ **Riding to work reduces traffic and parking congestion**
- ✓ **Riding to work uses less fuel than an automobile**
- ✓ **Riding to work leaves me alert and energized**
- ✓ **Riding to work results in less pollution than commuting in a larger vehicle**
- ✓ **Riding to work is less destructive to road surfaces, bridges, etc.**
- ✓ **Riding to work gets me to work (and back home) faster**
- ✓ **Riding to work demonstrates motorcycling as a social good**
